

# SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XIX.

STANFORD, KY., TUESDAY, APRIL 21, 1891.

NO. 14

## MIDDLEBURG, CASEY COUNTY.

—Our doctors report the community in a distressingly healthful condition at present.

—Rev. G. C. Smith preached at the Baptist church Saturday. Bro. Smith has a brand new wife, of which he seems to be very proud.

—Rev. J. N. Bowling will attend the Southern Baptist convention at Birmingham, Ala., which convenes on the 8th of May. He will be absent about ten days.

—James Nall has been appointed receiver for Robert Knight, who deserted his wife and eloped with the widow Inman some time ago. He sold his effects last Saturday to satisfy various claims against Knight.

—A couple of fruit agents cut a wide "swath" at Yosemite a week or more ago, for which they may yet have to account. They hailed from Little South Fork and their names will be given to the readers of the INTERIOR JOURNAL as soon as your scribe is enabled to obtain them.

—Rev. J. N. Bowling has moved from McKinney to this place. He is superintending the work of the Janie Wash Institute. He is so full of business and talks business incessantly that our readers have become uncomfortable in his presence and have betaken themselves to some more useful employment.

—John and Nelson Wilcher, tan bark men, are working a large force of men in the knobs hereabout. They have a contract for 650 cords, but they intend handling more than double that amount. Holland & Coulter are also dealing extensively in the business and are working a force of men in the knobs near Yosemite, under the supervision of Mike Jones.

—If those who own property here would build a few cottages to rent they would derive a handsome income yearly from the rent of them, besides adding greatly to the appearance of our village. There are only six houses in town to rent and they are scarcely fit to live in. They have become dilapidated and are eyesores to the town. Yet the owner is renting them for from \$3.50 to \$7 per month. If there were half a dozen or more neat dwellings built the owner of these old shanties would be compelled to repair them, or they would remain empty.

An idea of the enormous extent of the government printing office may be gained when we state that the public printer has asked bids for 15,000 pounds of English, 5,000 pounds of pica, 75,000 pounds of long primer, 60,000 pounds of brevier and 48,000 pounds of nonpareil—203,000 pounds, or about 9 car-loads. Of this amount 33,000 pounds have been awarded to our house. That is what the compositor would term a big "take." Type must be delivered by the first of September. It is the largest contract ever taken by a Western foundry.—Barnhart Bros. & Spaulding's Type Foundry, Chicago.

INGALLS'S TRIBUTE TO CLEVELAND.—Ingalls says: "Lincoln, Grant, Hayes, Garfield and Harrison all read their inaugural addresses—Cleveland spoke his. It showed how thoroughly he had his intellect disciplined. There, before 50,000 people, where the slightest mistake would have been held up to the country, with a piece of paper no larger than a visiting card, to guide him, he spoke to the world. It was the most remarkable exhibition of nerve and control ever given by a president on his inauguration day."

After a silence which has grown monotonous, we have concluded to speak out. As a matter of fact, brethren, we wrote "The Bread-winners."—Frankfort Capital.

No, you didn't. You wrote "The Beautiful Snow" and "Little Annie Rooney," but the author of "The Bread-winners" remains a secret between ourselves and the Harpers Publishing Co.—Jessamine Journal.

John Oliver Daniels, of Brunswick, is a colored man who is attached to the hydrographic coast survey. In connection with that business he has a school numbering over 100 scholars, which he teaches at the rate of 25 cents a week per scholar. He speaks French, Spanish and English fluently.

GLYCERINE.—Half a teaspoonful doses relieve the irritation of the throat caused by coughing. Mixed with powdered tannic acid and diluted with water. It is a good gargle for a relaxed sore throat. Mixed with four times as much rose water it makes a healing wash for chapped hands.

In the United States annually about 2,500 persons are tried for murder, with an average of about 100 legal executions. In five of the States imprisonment for life has been established for the death penalty.

The hottest place on earth is said to be Death Valley, in south-eastern California, with a record of 130 degrees Fahrenheit, beating the highest record of Sahara Desert and the shores of the Persian Gulf.

## CHURCH AFFAIRS.

—Archbishop Ryan, of the Catholic Church, has issued an order forbidding any Sunday funerals in the future.

—Rev. J. C. Caldwell left Thursday for Mercer county to hold a protracted meeting, and will also attend Presbytery before his return.—Elizabethtown News.

—The Rev. James McMahon, pastor of St. Andrew's Roman Catholic church, New York, has given real estate in that city and Long Branch valued at \$500,000 to the Catholic University at Washington.

—Mrs. W. G. Welch has received a letter from Rev. George O. Barnes suggesting a plan for systematic contributions by his friends for him and Rev. Geo. W. Dunlap, both of whom are in need of funds to push forward the gospel of that Love they preach, and it will appear in our Friday's issue.

—The meeting conducted by Rev. Ben Helm and Bro. Joe Hopper, at Rowland, has been wonderfully blessed. Thus far some 20 persons have professed faith in Christ and quite a number of others have expressed an interest upon the subject of religion. All christian people should pray that the work will go on and increase in power and influence until the whole community is brought on the side of Christ.

—Recently Treasurer George H. Bruce and the other managers of the Christian church financial affairs resolved to get it out of debt and they have succeeded admirably. They sent out a circular letter stating the condition of the church and appealing to the membership to come forward with the money or sign an obligation for the amount they would pay. Sunday \$190 in money was raised and more than a sufficient amount pledged by those who mean it to cover all old debts and the entire expenses of the present year, including the pastor's salary.

## FARM AND TRADE ITEMS.

—W. M. Bright sold to Bahr & Kahn a lot of 140-pound shoats at 3½ cts.

—T. H. Smith sold to a Rockcastle county party a lot of 2-year-old heifers at \$13.50.

—A. M. Pence has entered his Eddie W., by Pence, in the Jessamine county fair stakes.

—P. C. Kellogg, of New York, has received \$12,000 as his commission for selling Gov. Stanford's stock.

—Abel Coleman, of Mercer, has sold \$12,000 worth of colts of his own breeding and handling within a year.

—A. C. Robinson sold to Tom Woods 40 fat hogs for 4½ and a saddle horse to E. W. Lee for \$175.—Lancaster Record.

—Joe Harlan sold Tuesday to W. M. Swope, of Lexington, a 2-year-old jack by Imported Abran, dam by Giant, for \$700.

—J. M. Maxwell, of Livingston, Tenn., sold in Mercer 53 good mountain cattle at 2½ to 3 cents and to Garrard parties 25 at same prices.

—The Mercer Coal and Grain Co. purchased of McFatridge Bros. 10,000 bushels of wheat at 95 cts. just before the fire.—Harrodsburg Democrat.

—James Anderson sold to Johnson, of Boyle, 21 head of mountain cattle at \$11 per head. Mr. A. also sold to Tomkins, of Garrard county, a pair of mare mules for \$290.

—The farmers say that the ground is so dry and hard after the heavy rains of a few weeks ago that it is impossible in many cases to plant corn. Rain is needed badly, but the signal service has ceased to predict it.

—Mr. S. H. Baughman's Frank, by Rossington, and Latonia, by Imp. London, each showed a half in 50 seconds in Louisville Friday. This is something unprecedented for 2-year-olds with the little handling that they have had.

—Bahr & Kahn bought of A. W. Carpenter a lot of butcher cattle at 2½ to 3½ cents and of Jesse and Monte Fox 8 at 3 cents. They bought several lots of extra fine butcher hogs at 3½ to 4 cents and of E. P. Woods a lot of wethers at 5.40.

—The prospect for a large fruit season is very promising, but few buds having been killed. Squire Murphy says he never saw the blooms so large. The wheat is also very fine, with the acreage fully 100 and the condition 110 or more.

—Twenty cars of distillery cattle were shipped from here Monday to Jersey City, N. J., by Charles Byrne. The train load of cattle had a valuation of \$25,000. The same party has 300 cars in and about Tyrone, which will soon be ready for shipment.—Harrodsburg Sayings.

—Dr. P. W. Logan says that his thoroughbred Breechloader, is such a fine horse and excellent breeder that it is not necessary to show him, but if there are those who want to see the finest piece of horseflesh in the country, they are cordially invited to come to his home and examine him.

—Burnam & Galloway bought 500 bushels of wheat of W. J. Gillispie at \$1 per bushel. C. C. Chrisman, of Kirksville, sold his farm of 200 acres to Dr. Phillips, of Monticello, for \$17,000. Burnam & Galloway bought of J. B. Parks 100 barrels of corn at \$3 per barrel, and 200 bushels of wheat of Ben Price at \$1 per bushel.—Paint Lick Cor. Record.

## To The Voters of Lincoln County.

CRAB ORCHARD, April 20.—Believing from the numerous assurances received from friends in various parts of the county that there is a prevailing sentiment in favor of an East End man representing Lincoln county in the next General Assembly of Kentucky, I take this method of formally announcing to you my candidacy for that office. In deciding to make the race I have not acted from any ambitious impulse, nor have I been influenced by any personal motives; but simply from a desire to serve the people of my native county in what I hope to be a useful capacity. I am no orator, nor do I make any pretensions to statesmanship. The long sessions of past legislatures are pretty good evidences that there has been a little too much oratory in that body. What I believe the people want at this time is more business and less speech-making; more economy and less prodigality. Therefore, if I am elected your representative, it shall be my first and most solicitous care to discharge in a manner as faithfully, efficiently and conscientiously as lies within the scope of my power the duties of a representative. I shall give my best attention to your interests and endeavor to reflect in my acts, upon every question of public importance, the unbiased sentiments of my constituents. I shall hold myself entirely independent of all corporations and receive no privileges from them to prejudice me in favor of the few at the expense and detriment of the many. Cherishing these views and promising to adhere to them if chosen, I cheerfully submit my claims to the will of the democracy as expressed at the approaching democratic convention.

Respectfully, D. B. EDWARDS.

## CRAB ORCHARD.

—Twenty pounds sugar for \$1 at W. E. Perkins.

—Born, to the wife of D. C. Payne, another fine girl baby, Wednesday.

—We were glad to see the I. J. business manager at our entertainment and trust he was entertained. [He was, very highly.—Ed.] Mrs. Jennie Williams, of Mt. Vernon, was down Sunday to see her uncle, W. T. Saunders, who is still very sick. Messrs. Beazley and Gaines were so taken with "Rachel" that they spent Sunday with her folks. Miss Maud Bowman leaves to-morrow for Louisville to visit Miss Nellie Smith. Miss Maud Pettus went home with Miss Mattie Henry, of Lancaster, who came over to take in "The Rent Day."

—The Crab Orchard Dramatic Society acquitted themselves with credit Saturday night. A large crowd witnessed the play and they seemed to enjoy themselves very much. We note the characters: Miss Loula Stuart and J. R. Bailey as Rachel and Martin Heywood, the leading characters, acted their parts of broken hearted tenants with a great deal of feeling; Miss Maud Pettus, as Polly Briggs, in her winning way did justice to her character; Miss Hannah McFall as Dame Beantalk, the old lady, was perfect; J. C. King, Silver Jack, thought 2 moons rose o'er the city instead of one. J. B. Gilkerson, Hyssop, acted the part of a drunken man so perfectly that he fell against a tree and uprooted it; J. R. Cook, Bullfrog, who was so sure he would get a kiss and in getting his mouth in shape lost his goatee, and being surprised by Toby Heywood, who acted well his part, and by main strength deprived him of his sweet kiss; J. A. Stephenson, Crumbs, makes a very dignified old man; Holdan Stuart, who acted two parts, Grantley and Beantalk, the former a handsome young man, the latter a very old man, acted both parts exceedingly well; Hundley McClure, Patton King, and John Carson acquitted themselves with honor. The farce, "Johnny, You've been a Bad Boy," was splendid and kept the house in an uproar, but it was too bad that Johnny got his pants burned.

WATERPROOF FOR SHOES.—Beef tallow 4 ounces; beeswax 1 ounce; melt together and add, when cold, an equal quantity of neat's foot oil. Apply with a woolen rag, rubbing in well with the hand.

When once infidelity can persuade men that they will die like beasts, they will soon be brought to live like beasts also.

No man ever gets to the top anywhere without first going through fires hot enough to show that he has good metal in him.

The young man who fools away his time is about as long-sighted as the farmer who makes a hen roost out of his \$200 self-binder.

To the young man who doesn't know how to dance, dancing never seems so immoral as it does when he sees the girl he likes best of all waltzing around with another young man.

Spare-ribs will be plenty in Utah this fall, since the Mormons intend to get along with but one wife.

—Little Rock suffered a half million fire.

## LONDON LAUREL COUNTY.

—The street lamps are now up and give light nightly, moon or no moon.

—R. H. Craig, of Lynn Camp neighborhood, had a very valuable horse stolen from him Friday night.

—Mrs. Rebecca Pitman, who has been here for several weeks, has gone to Manchester to visit her son, W. C. Pitman.

—Mrs. Jack McGee is very sick and is not expected to live. Two of E. H. Hackney's children are very sick with measles.

—The democratic candidate for this congressional district will be from Bell county and the name will be announced in a few days.

—Chris Jackson exhibited a very large blue heron on the streets Sunday that he had killed on the Little Laurel. It will be stuffed by Dr. Melcon.

—Prof. John O. Hodges has been here to see about his candidacy for superintendent of public instruction and will have considerable following.

—Burk's Great Shows are advertised to exhibit here next Saturday. A circus always draws a crowd here and the probability is there will be many present.

—Senator Harris met so little encouragement for Son-in-law Clay here that he doubtless felt like using the same expressions about Laurel that he did about Rockcastle.

—T. J. Perdee has built a house and established his marble works near the depot and has now several orders on hand. He deserves and no doubt will get all the work he can do.

—Mr. Andrew Johnson is having the porch and other portions of the old brick on the hill torn down and will have some parts of it rebuilt. It has been reported that he will move to London.

## MATRIMONIAL MATTERS.

—Dr. W. B. Armendt, of Owensboro, Ky., will be united in marriage to Miss Mai Underwood, of Union City, Tenn., at 10 o'clock A. M., April 22. The marriage will take place at the Baptist church in Union City. Miss Underwood has visited the family of Mr. C. F. Kleiderer in this city several times and is a most sweet, pretty and estimable lady. Dr. Armendt is one of Owensboro's most prominent and respected citizens. The bridal party will return to Owensboro via Henderson and will be the first couple to occupy the handsome bridal chamber at the Hotel Henderson.—Henderson Gleaner. Dr. Armendt married Miss Jennie Buchanan, of Crab Orchard, and is well and favorably known here.

## DEATHS' DOINGS.

—Miss Annie Cecil, well-known in this section, died in Scott county.

—We learn with deep and unfeigned regret that Dr. J. B. S. Frisbie died at his home in Kirksville yesterday morning. He had been sick for a long time, but his friends were hopeful to the last. The burial takes place to-day at Richmond. We shall have more to say of his life and labors in our next.

—Dr. J. K. VanArsdale telegraphed from Warrensburg, Mo., to his wife that his mother died Saturday of pneumonia. Mrs. Susan VanArsdale was born and raised in the Rush Branch neighborhood, near this place, and after her marriage moved to the Hustonville section. Her husband died some 30 years ago and about 15 years after she went to live with her daughter, Mrs. Ann, Smith, in Missouri. Her last visit to her old home here was about four years ago. Mrs. V. was an excellent christian woman and had been a member of the Baptist church since childhood. Everybody that knew her in this section loved her for her many sterling traits of character and will sorrow to hear of her death, even though she had lived to four-score. She was the mother of nine children, but all preceded her to the grave save Dr. VanArsdale, of this place, Lawrence VanArsdale, of Colorado, and Mrs. Smith.

## Still After J. H. Miller.

(To the Editor Interior Journal.)  
ROWLAND, April 18.—We know what we are talking about. The purest democracy in the county recognizes Mr. J. H. Miller's good capacity to represent Lincoln county in the next legislature, and we take this method to inform you and him and everybody else that we intend to run him for the nomination.

—A cyclone blew down the courthouse at Hansford, Texas, killed two men and moving on to Paludora, entirely destroyed it.

W. P. WALTON.

The republicans expect to win thousands of votes by the reduction of the 2-cent-a-pound tariff on sugar, but when the people find that the removal of the tax was made at an average of 33 1/3 increase on the other and more important necessities of life, they will not permit themselves to be hoodwinked by the specious pleas that will be sounded in their ears by the vote-seekers. If the so-called free sugar is a good thing, why doesn't it apply as well to clothing and the other real necessities. But sugar is not free, as many people suppose. Raw sugar is free, but the refined article is protected by half a cent a pound, which goes directly into the pockets of the Trust, without a particle of benefit to the government. This amounts to \$15,000,000 a year on the average consumption of 3,000,000,000 lbs., which, with the bounty of 2 cts. a pound to the producers on sorghum, beet and maple sugars, raised in this country, \$10,000,000 more, will make \$25,000,000, which the consumers will have to pay, without the government getting a cent's revenue, with which to pay pensions and other expenses. In other words the government gives up \$55,000,000 of revenue without any return whatever, while the people pay to individuals nearly half that sum, an extortionate amount, pure and simple. Already the Sugar Trust has decided to decrease the production of its refineries and thus force the price up again, and it is not at all improbable that within a year sugar will be as high as it was last month. The reduction of the sugar tariff was not for the purpose of benefiting the people, but to put money in the pockets of the Trust and the producers, so that they would be better able to furnish the lucre for the purpose of purchasing blocks of five. Let no one be deceived by the republican claim that the reduction lessens the cost of living. It was made at the expense of the other necessities, upon which the duty is increased all along the line. Do not forget that the tariff is a tax and that the McKinley bill increases it in every important particular, 20 years after war and in time of profound peace and plenty.

Discussing the acquittal of Clark Cash for the murder of E. T. Young, at Dallas, Texas, the Louisville Post says that the unwritten law that sets men free for such killings ought to be discontinued by every citizen. It also very sensibly adds: "There may become excuse for punishing with death the libertine who takes advantage of a young girl's innocence and ruins her with false promises, but the case of a married woman is altogether different. A married woman cannot be betrayed. Her experience has taught her to be able to take care of herself, and when she falls from grace it is of her own free will and with her eyes open. She is always as guilty as her lover, and in the majority of cases is even more to blame. No married woman who conducts herself properly will ever be approached in an improper way. It is only when a wife lets down the bars that a man makes advances, and under such circumstances the man's crime is not a capital one. Cash should have been punished for killing Young the same as if their quarrel had been over money instead of over a faithless woman." Well said, indeed. Besides, there is no proof that Mr. Young led Mrs. Cash astray. Numerous and diverse men appear to be as guilty as he, at least dozens are charged with "debauching" her, several of whom paid Mr. Cash from \$500 to \$1,000 for their fun. The whole case presents the most disgusting and criminal aspect of any we ever knew of or read about.

The silly bill prohibiting actresses from exposing their limbs on the stage, either in tights or otherwise, so that their shape can be defined to public view, which passed the Minnesota Senate, has been side-tracked in the House, and will not be reached at this session. When there was a prospect of the bill becoming a law numerous opera companies cancelled their dates in the State, as the singers did not wish to appear ridiculous in long dresses or bloomer costumes.

We do not know that the London Echo has authority to speak for the democracy of Laurel, but it is moved to remark that Senator Harris got poor encouragement there for his son-in-law, C. M. Clay. The paper also says: "If we read the signs of the times aright, Laurel county will vote for Hardin and Senator Harris will have to look elsewhere for the necessary votes to nominate his favorite."

It is stated that Ewing Watterson, son of the great journal st, has bought an interest in the Middlesboro Herald and will locate permanently in that city. Mr. Watterson is said to possess much of the genius of his distinguished father and we expect to hear wonders of him.

The Harrodsburg Democrat says that Gen. P. W. Hardin has every assurance that he will be nominated for governor. There is no doubt that he is good timber for the office.

The Louisville Critic is another. We made no savage attack on Auditor Norman or Gen. Hewitt. On the contrary, we disavowed any intention of throwing stones at them and as a matter of fact did not. So far as Gen. Hewitt is concerned, mention was only made of the decision of the Court of Appeals as to his negligence, whereby the defalcation of Tate was made possible. As to Maj. Norman, we had naught to say, except that he had sucked the public teat long enough and that he was permitting his clerks, that are paid by the people from \$3 to \$10 a day to serve them, to gallop over the State and beg the voters to support Norman, because it will give them a further lease on official life. Maj. Norman was appointed to the office at the solicitation of Gen. Hewitt and unless he had been, the general would be auditor now. The people know that the election of Norman is a continuation of the Hewitt administration and they want a change. No set of men can make themselves indispensable to the conduct of the office, as the Critic claims. There are thousands of others who would make as good if not better clerks, and Mr. Warren will have them. There are no vested rights to office in this country and the democratic principle of rotation is a good one. Let us have a little rotation and nominate Richard C. Warren, who is honest, capable and the peer of any man in the State.

A spin through Scott, Fayette, Jessamine, Mercer, Boyle and Lincoln at this season of the year discloses a panorama of beauty to be enjoyed as fully in no other region perhaps in the world. The fruit trees are either in full bloom or blossom of variegated hues, the earth is covered with a carpet of exquisite verdure, while the trees are donning their summer garb of loveliness, surpassing even the beauty of the spring attire of a fashionable lady. The wheat and other crops are unusually promising and the whole surroundings are lacking in nothing to detract from the picture of loveliness, peace, happiness and prosperity. In fact, "every prospect pleases and only man is even suspected of being vile." Beautiful at all times, the blue-grass section is now indescribably so and the most confirmed hypochondriac could not view it and sing with any truth or unction the old hymn commencing "I would not live away, I ask not to stay," but pray for youth and health to enjoy it forever.

In its proper place in this paper will be found the announcement of the candidacy of Mr. James B. Martin, of Barren, for clerk of the Court of Appeals. The selection will be made at the coming convention, which will leave the gentleman but little time for a personal canvass. Mr. Martin is one of the best qualified men in the State for the position and would fill it with satisfaction and credit. We commend him to the party as a democrat of the purest type and a gentleman every inch.

CARTER HARRISON ran as an independent democrat against the regular democratic nominee for mayor of Chicago and succeeded in giving the office to the republican by a small majority. He says he will retire from politics now and either go abroad or to farming. Most Chicago democrats and a majority outside of the Windy City wouldn't care if he went to the devil.

The Lebanon Enterprise has been purchased by Mr. M. F. Featherington, an old newspaper man from Bardstown. The price paid was \$5,000, which included the entire outfit. Here's success to the new proprietor. Mr. Hill, the former editor, will go to Owensboro and practice law, as well as engage in a more pleasant and profitable profession.

The Mt. Vernon Signal publishes in large type that Senator Harris remarked there the other day, when he found little sentiment in favor of his son-in-law, Mr. Clay, that "Rockcastle county could go to hell." This must be a mistake. No politician, even of small degree, could be so indiscreet, to say the least of it.

ALTHOUGH Mr. Clay was on the ground hoping to get the endorsement of the Daviess county alliance, the convention declined to honor him. The farmers are evidently determined to be free to support the best man to be nominated, whether he be Clay, Brown, Hardin or Clardy.

MR. D. B. EDMISTON announces that he is a candidate for the legislature, subject to the action of the democracy. He is splendidly equipped for the office, is an excellent and popular gentleman in every sense and would reflect credit on old Lincoln.

THE Somerset Republican will print discussions of the new constitution at the modest sum of \$1.20 a column, less than it would cost us to set the type. Editor Lewis is not prepared yet to say whether he will support or oppose the crazy quilt concern.

—The report that Mary Anderson Navarro had become a mother proves untrue, but the advent of an heir seems the very thing necessary. "Our Mary" is said to be both melancholy and morose and the formerly beautiful actress is now a perfect wreck, thin and pale as a ghost.

—Some fiend poisoned the feast at the Snooks-Herr wedding, in Jefferson county, and 40 persons were rendered terribly ill by partaking of it, including the bride and groom. B. Frank Guthrie, of Louisville, and another person are dead from the effects and others are expected to die.

—War is raging in Chili and in a battle recently the rebels routed the government, which lost 3,700 men; 1,700 killed, 1,500 wounded and 300 prisoners. All the guns and artillery parks in the North are in the hands of the rebels and they have captured every steamer chartered by the government to bring in arms and ammunition.

—A number of casualties were reported Thursday. By an explosion of fire damp in a mine at Tamaqua, Pa., three men were killed and five seriously injured. In a railroad wreck in Maryland a train was burned, three lives were lost and a number of survivors suffered horribly. At Lebanon, Ind., two lives were lost by the explosion of a mill boiler.

## Thousands Poisoned.

In a recent work on Heart Disease, Dr. Franklin Miles—the noted specialist—gives many new and startling facts. Thousands of people are slowly poisoning themselves, weakening themselves, by the use of tea, coffee, tobacco and alcohol. Finally heart failure and sudden death. For weakened and irritated hearts the press every where highly recommended. The New Heart Cure discovered by Dr. Franklin Miles, which is for sale at A. R. The barn belonging to Mr. Tinsley Spoonamore was burned Saturday. Only a few farming implements were destroyed. It is not known how the fire originated.

So many barns in his neighborhood having been burned, Mr. W. M. Perkins came in and had his house and barn insured yesterday. All the farmers should do so.

FIRE destroyed the residence, smoke house and other buildings belonging to ex-Coroner W. J. Daugherty, near Turnersville, Friday night. Nothing was saved but two beds and Mr. D. is left in a very bad fix. The fire started from the kitchen, but he is confident it was set. His loss is \$500.

It has been very warm and dry for a week or more and the streets are as dusty as in August. If the water works company don't hurry up we will have no street sprinkling this season. They are burning daylight now if they expect to fulfill their contract to have the works in operation August 1.

No. 18s.—Buford Ellis a colored L. & N. employe at Rowland, has probably the largest foot for his size in the country. He is about 6 feet tall, weighs 170 and wears No. 18 shoes. His lasts, which are of course made to order, resemble saw logs more than they do the shape of a human being's foot and the bottom of them are as flat as a flounder.

The Chaucer meeting at the College Friday afternoon, in which the young ladies of the Literary Class took part, was much enjoyed by those fortunate enough to be present. Essays on the great writer were read and many of his famous quotations, with which the young ladies were very familiar, were used. The occasion was made doubly pleasant by instrumental music by the experts of that institution.

The town of Harrodsburg is particularly unfortunate in the line of disastrous fires. Just a year ago she suffered a \$125,000 conflagration and on Thursday night another severe one, causing a loss of \$51,000, occurred. Fire was discovered in the Mercer Grain and Coal Co.'s large elevator, but had gotten under too great a headway to be controlled by the poor fire fighting facilities that that place affords. There were some 30,000 bushels of wheat in the large elevator and a smaller one, which also burned, and the loss is estimated at a little more than \$50,000. The wheat was entirely covered by insurance and the company held \$13,000 on the buildings. The Louisville Southern depot was injured to the extent of \$1,000. Spontaneous combustion is generally supposed to have been the cause.

A mass convention of the democracy of Lincoln county is called to meet at the courthouse in Stanford on Saturday, May 2, at 2 p. m. to appoint delegates to the next State convention. J. B. Paxton, chairman.

The Stanford & Logans Creek "cut-off" turnpike, some 2 miles in length, has been let to Mr. J. H. Ryan, an experienced contractor, at something less than the engineer's present estimate. The work commences this week and is to be completed in 3½ months. Mr. Ryan asks that all his old hands come and get a new job with him.

AGENTS of the Queen & Crescent route will sell tickets to Chicago and return, on account of the National Association of Trotting Horse Breeders' Convention, April 22 and 23, at one and one-third fare for the round trip, on the certificate plan, selling tickets at regular fare going, and giving certificate that will enable the owners to return at one-third fare.

The handsome gold watch and chain belonging to Mrs. B. G. Alford was stolen Friday. Mr. A. had left it up stairs and it is supposed that while he was in the front portion of the house the thief entered by the steps in the rear and walked off with it. Sneak thieves are getting entirely too plentiful in this section and it is very necessary that an effort be made to exterminate a few of them.

FIRE.—About 6 o'clock Saturday evening the fire alarm was sounded and the bucket brigade was seen running down Main Street at a break-neck speed. Col. T. W. Miller's roof had caught fire from a flying spark and had it not been seen in time one of the finest dwellings on lower Main Street would likely be in ashes now. Messrs. W. G. Raney and Richard Walter who were working near by succeeded in extinguishing the flames before much damage was done and by the time the b. b. arrived they were leaving the roof.

This office has frequently been taken for a photograph gallery and once or twice for a woolen mill, but not until Saturday last had it been accused of being a banking institution. A damsel of a dusky hue came up and handed one of our handsome printers, whom she supposed was the cashier, a check and asked for the money on it. The usual large supply of money on hand in a printing office makes it unnecessary to say that the check was cashed, but for fear that we may be further troubled, we will state that while we are very near a banking institution (just over one) our time is too precious to devote to business in that line.

The much talked of malpractice suit of Henry A. Pleasants against Dr. Steele Bailey for the alleged bad setting of a broken leg, was decided Saturday, the jury bringing in a verdict for the defendant. All of Thursday and Friday and till 12 Saturday were taken up with the testimony and it was 7 o'clock that evening when the speaking was concluded. Messrs. Sautley, Miller and Owsley for the defense and Messrs. Breckinridge, Harding and Bobbitt for the plaintiff, all made good speeches and were highly complimented on their labors. The jury was in its room just 3½ minutes, and the attorneys for the defense claim that it would not have taken even that long to decide had not the rest of the jury had to wait on a couple of jurors who were tardy in getting to the room. It is generally conceded that the plaintiff made not even so strong a case as at the October term when the jury stood 10 to 2 in favor of Dr. Bailey. The doctor's friends are rejoiced at the outcome, though they never doubted that it would be otherwise. Mr. Pleasants will take the case to the Court of Appeals.

—Pascal Porter, the 2 year-old son of Mr. and Mrs. Zan Dudderar, died Saturday of spotted fever. The remains were interred in Buffalo Cemetery Sunday afternoon.

THE trustee of the jury fund, Mr. B. G. Alford, tells us that the pay of jurors at the four weeks' term of the circuit court just closed was but \$900, \$300 to \$400 less than usual, though the lawyers say that the docket came nearer being cleared than ever before. Judge Morrow doesn't permit much money to be wasted by holding juries unnecessarily.

—Rev. E. W. Withers will preach at the Court-House at 3:30 on the afternoon of the 1st Sunday in May.

—Gripnan the death rate in Cleveland, O., last week to 169, the largest in its history.

—H. N. Engle, of Bullitt, killed himself, after firing twice at his doctor and missing him.
